You and your partner will be competing against another team in a nine hole handicapped scramble / match play format. Each individual will be allowed one mulligan to re-hit an arrant shot. **But wait.. there's a twist!** That mulligan can either be used for your own shot or you have the chance to make an opposing team member re-hit one of their shots. Strategy will become a factor in this format, making every week an intriguing yet exciting round!
